Dear Doctor:

Your patient, ____________________________, wishes to start a personalized training program.

If your patient is taking medications that will affect his or her heart rate response to exercise or should limit certain types of movement, please indicate the manner of the effect (raises, lowers, or has no effect on the heart-rate response) and movement limitations:

Type of medication ________________________________________________________________
Effect __________________________________________________________________________

Please identify any movement or general recommendations or restrictions that are appropriate for your patient regarding exercise:
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

Thank you.
Sincerely,

Chera McCabe
